

Karan Gadhave

Senior Product / UI UX Designer

Profile Summary:

Senior Product Designer with 5+ years delivering end-to-end UI/UX and AI-assisted vibe-coding builds for websites and web apps; ready to join immediately. Strengths: user research, usability testing, information architecture, user flows, wireframing, interactive prototyping, interaction/visual design, design systems, accessibility. Shipped integrated platforms including HubSpot and WordPress implementations and a gamified parent platform.

Work Experience:

Team Pumpkin	April 2022 - Present
Senior Manager - UI UX Designer	Remote, India

Key Responsibilities

- Owned multi-year vibe-coding builds, delivering production websites and web apps from discovery to launch and post-release iteration.
- Designed and developed the Future First Families website with end-to-end integrations across auth, forms/CRM, analytics, and automations.
- Built the Future First Families gamified parent platform with onboarding, progression mechanics, engagement tracking, and admin controls.
- Delivered cross-platform experiences (websites, web apps, responsive) using rapid prototyping and AI-assisted workflows to shorten cycle time.
- Built and customized designs on HubSpot CMS and WordPress—including themes/modules, landing pages, blogs, forms, and marketing automations.
- Created and governed design systems to standardize UI, improve accessibility, and accelerate feature delivery.
- Led design for healthcare platforms (Healthsignz, MYMEDIC), mapping patient/provider journeys and shipping inclusive, compliant experiences.

Pepperpenny	June 2021 - March 2022
UI UX Designer	Remote, India

Key Responsibilities

- Designed core features for StockMarketBox like broker comparison, market tickers, courses, and blog.
- Successfully launched Stockmarketbox.com, boosting online presence.
- Created custom illustrations and animations, increasing user engagement by 20%, and designed 30+ mobile trading app interfaces in 3 months.

DBM Infotech PVT LTD	March 2021 - June 2021
UI UX Designer	Pune, India

Key Responsibilities

- Led the design for Teach Max mobile application.
- Worked on various redesign projects from websites to mobile application including company website

Internship Experience:

FarmiGO	October 2020 - December 2020
UI UX Designer Intern	Remote, India

Key Responsibilities

- Designed both UX and UI with a deep focus on enhancing user experience through extensive research and 20 user interviews, ensuring data-driven design decisions.
- Applied advanced problem-solving skills to deliver optimal and intuitive design solutions, addressing user pain points effectively.
- Spearheaded the app design process from initial research to high-fidelity prototypes in just two months, showcasing agility and expertise in fast-paced environments.
- Conducted comprehensive research, including user interviews and feedback analysis, to inform a seamless and user-friendly product experience.

Education:

Bachelor of Arts in History	2016 - 2019
Yashwantrao Chavan Maharashtra Open University	Barshi, India
